Introducing a tiny rabbit with a big personality! Madeleine is a sweet rabbit who loves to eat carrots. In her debut story, Madeleine's emotions get the best of her, so she attempts to cope in a productive way. Read along in French and in English as Madeleine learns the benefits of patience.

☺ **"Madeleine Lapin is a sweet beginner reader about the eponymous Madeleine, a French rabbit who learns patience through gardening. The charming illustrations and clear bilingual text with short sentences appeal to kids learning to read on their own and families interested in sharing the French language with their little ones."** ☺

Alice Chen Kitterman

The most exciting aspect about being an author/illustrator is the countless ways I can tell a story, from the selection of the style of art, to the tone of the narrative.

I like characters who serve as straightforward role models for kids to help them navigate the twists and turns in life. But seeing characters struggling to overcome adversity may help kids to accept their own struggles, while presenting ways to overcome them.

Targeted Age Group

3-8 years
